

Join us and become a more efficient business owner...

The benefit for Owner Operators that use J.A.W.B.S. is that we can gather information from each specific company's records and computer systems to help track individual Owner Operator accounting and tax information. This alleviates the burdensome task of gathering all of your paperwork each day, week and month and sending it to your accounting service. J.A.W. can actually gather about 85 percent of the required information directly from the systems in place at the company the Owner Operator drives for. This means that an Owner Operator only needs to provide very specific simple information to J.A.W.B.S. on a monthly basis. An Owner Operator is left with the time to do what they do best, drive their truck and make more money! Our goal is to help Independent Truckers preserve their time and grow their wealth.

Managing the business side of your business.

THE BUSINESS OF TRUCKING

Welcome to J. Allen Wallace Business Services (J.A.W.B.S.) You have chosen what I believe to be the best Owner-Operator Business Management Program available today.

J.A.W.B.S. has a program designed to make our customers the most successful owner-operators in the industry. Far more than the typical "bookkeeping tax service", J.A.W.B.S. provides the owner-operator with the business tools necessary to manage their business and maximize profitability.

FINANCIAL TOOLS:

J.A.W.B.S. can provide the owner-operator with a Personalized Budget. This financial roadmap provides a detailed breakdown of fixed costs, variable costs and also a break-even analysis. The budget and break-even analysis supply weekly, monthly and annual detail.

J.A.W.B.S. does the owner-operator's Bookkeeping. The owner-operator simply mails their unsorted business receipts and

settlement statements in a self-addressed envelope to J.A.W.B.S. at the end of every month, and we do the rest.

J.A.W.B.S. provides the owner-operator with a comprehensive Monthly Income Statement. The owner-operator can compare this monthly profit and loss statement to their budget to see exactly where they are over or under achieving.

TAX COMPLIANCE:

All self-employed people (owner-operators) are required to pay quarterly Estimated Taxes to the IRS. Unlike most bookkeeping tax services, J.A.W.B.S. calculates an owner-operator's estimated taxes on actual current income estimates. J.A.W.B.S. also provides year-end State (if necessary) and Federal Tax Returns. J.A.W.B.S. includes other non-trucking income and expenses and spouse income when preparing the owner-operator's quarterly estimates and year-end returns. J.A.W.B.S. can also file all state and federal Corporate Tax Returns at additional cost.

Act Now! Manage your small business for a small weekly fee that can be deducted from your company settlement. Each dollar expensed, equates to a dollar earned. Contact a J.A.W. Business Service Representative now to begin services today!
